CORRUGATED BOX

We are expert in all types of boxes such as universal box, die cut box, jumbo box, duplex box, corrugated roll, offset printed boxes, single color boxes and many more.....

We supply all types of corrugated box such as "B" flute, "C" flute. We are working in all kinds of GSM & BF, such as 100 GSM to 350 GSM & 12 Bf to 45 Bf, and Imported papers.

We are able to fulfill your all types of requirement regarding corrugated boxes. We are also care for your printing security and band value.

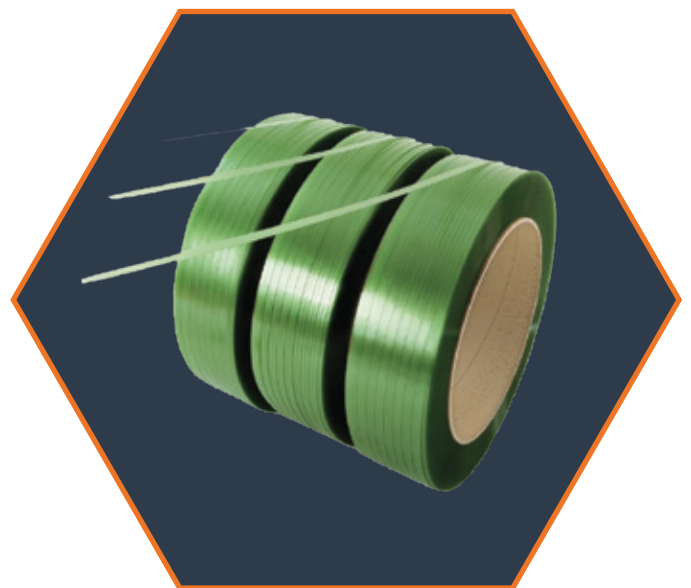

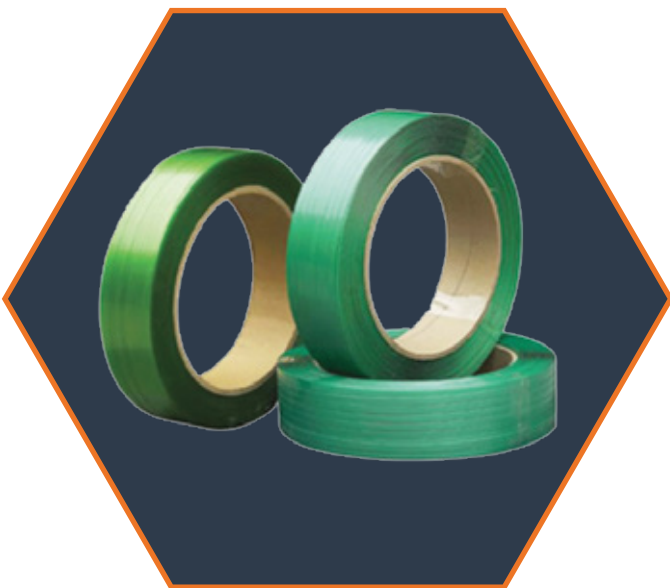

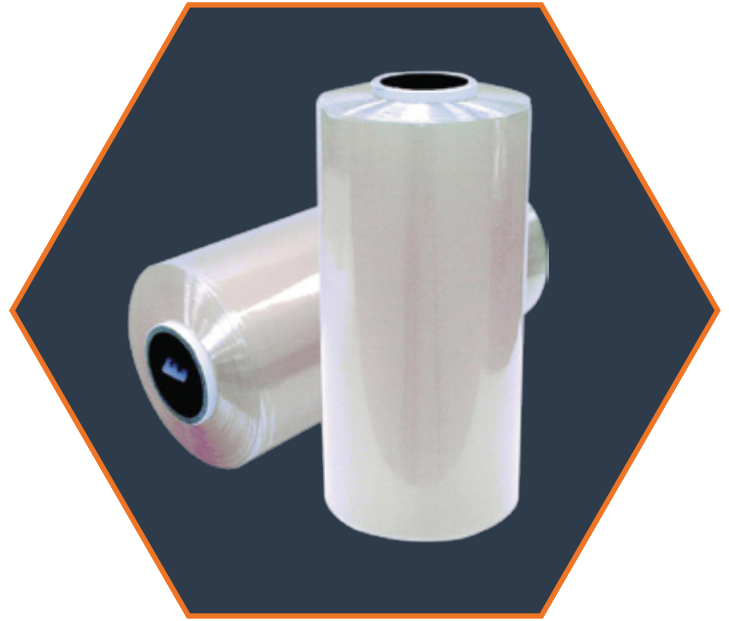

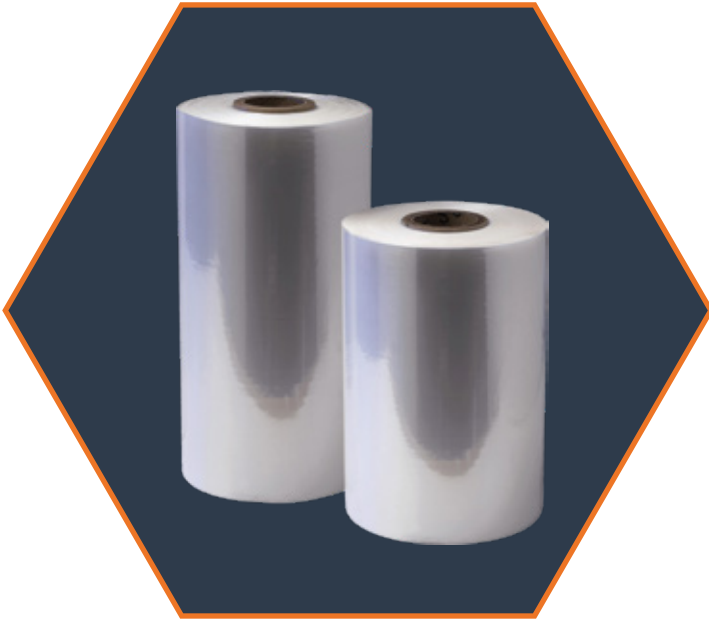

MONO CARTON

Royal Packaging is one leading supplier of mono carton packaging boxes to leading pharmaceutical, food & beverages, personal care and consumer goods companies. We supplying the mono cartons by customizing the packaging's sizes, shapes and Finish Printing , as per each customer's specialized requirement. We offers specialized Multi Colour Offset Printing, Gold Metalized Foiling, Security Printing, Lamination, High standard printing quality and finishing on the boxes for reflecting their Company's Brand.

PET STRAP

We are Supplier of PET Strap (Polyester), which is made from 100 percent recycled material. PET Strap is mostly used in Pallet Packing, Carton Packing and Cotton or Fiber Pressing Application. PET strapping is best used for rigid load and helps to absorb impact during transport. It's also a better alternative when you need higher initial tension to contain load. They are used for strapping, Metals, Lumber, Pallets of Bottles and Cans, Bricks, Tiles, Yarns, and excellent for stabilizing and pelletizing heavy load. The straps are temperature-stable and guarantee high strength and elasticity. We care for Strength, Elongation, Thickness and we are providing of different colours with special requirement with Minimum Quantity.

POF SHRINK FILM

Polyolefin Shrink Films are now the most sought Shrink Films in the Packaging Industry. These shrink films offer 80% shrinking properties (both directions) along with better transparency and remains odorless when heated and cooled. POF Shrink Film is recommended for Packing Applications where maximum optics and durable wrapping is required. Strong seals and an excellent Shrink appearance are obtained with Medium and High Speed Packing Systems. Polyolefin Shrink films are used for almost every kind of application but mostly used in several industries including food, beverage, industrial packaging, pharmaceuticals, and consumer goods.

Size: 6" Inches – 30" Inches
